Journal of Occupational Medicine

Vol. 17, January-December, 1975

The 1975 annual index consists of three parts: a subject index, an author and title index and a general section index. Books reviewed during 1975 and summary reviews of selected abstracts appear under **Book Reviews** and **Selected Reviews from the Literature.** The latter appear at the end of the subject index entries under category in boldface subheadings. The author index includes the title of the article under the first-listed author; alphabetical reference is entered for co-authors. Authors of **Letters-to-the-Editor** and **Question Clinic** are also entered in the author index. **Editorials** are listed in the subject index. The general section index lists principal entries from the **People and Events** section.

INDEX TO PAGES
According to monthly issues January-December

Pages No.	Month	Pages No.	Month
1- 64	January	409-488	July
65-144	February	489-552	August
145-216	March	553-616	September
217-280	April	617-680	October
281-344	May	681-744	November
345-408	June	745-808	December

SUBJECT INDEX

A

Agriculture Workers
occupational illnesses and injuries of California agriculture workers **177**
Aseptic Bone Necrosis
survey in compressed air workers **666**
Atherosclerosis
long-term mortality study of steelworkers **751**
prevention program **295,** correction **470**

B

Benzene
leukemia and potential benzene exposure (letter) **5**
Blood Lead
measurements alone can provide a false sense of security (letter) **621**
Blood Measurements
alone can provide a false sense of security (letter) **621**
Book Reviews
Committee Biologic Effects of Atmospheric Pollutants: Chromium-medical and biologic effects of environmental pollutants (reviewed by Carl Zenz) **401**
Committee Biologic Effects of Atmospheric Pollutants: Manganese — medical and biologic effects of environmental pollutants (reviewed by Carl Zenz) **72**
Dinman BD: The nature of occupational cancer (reviewed by Carl Zenz) **401**
Littler JW (ed): Symposium on reconstructive hand surgery (reviewed by Frank J Kelly) **493**
Lynch AL: Evaluation of ambient air quality by personnel monitoring (reviewed by Carl Zenz) **72**
McLean A (ed): Occupational stress (reviewed by Carl Zenz) **401**
Rhee HA: Human ageing and retirement (reviewed by Alan McLean) **493**
Tichauer ER: Occupational biomechanics (reviewed by Irving R. Tabershaw) **493**
Woolcott MW: Ferguson's surgery of the ambulatory patient (reviewed by Michael A. Polacek) **749**
Bronchitis
relationship of several ventilatory capacities and lung capacities to age, height, weight **355,** correction **568**
Byssinosis
airway responses in textile dust exposure **357**

C

Cadmium
some biochemical aspects of cadmium toxicology **189**
Carcinogens
background information on trichloroethylene **603**
early detection of lung cancer in high risk populations **19**
methods in occupational mortality studies **581**
occupational skin cancer **44**
Carcinoma
association between bladder tumors and chronic exposure to cresol and creosote **492**
early detection of lung cancer in high risk populations **19**
how to make cervical cancer control in industry more effective (Hlth. Ed. Newsline) **52**
long-term mortality study of steelworkers **751**
solvent exposure and leukemia among rubber workers: an epidemiologic study **234**
Cardiovascular
conditioning effects of a supervised program **240**
Cardiovascular Disease
see cardiovascular
IBM employee mortality **708**
mortality factors in diabetes **716**
near-maximal ECG stress testing and coronary artery disease risk factor analysis in fire fighters **693**
some physiological observations on French horn musicians **696**
Cerebrovascular Disease
IBM employee mortality **708**
Chemical Contact Lens
investigation of the chemical contact lens problem **163**
the problem (letter) **348**
Chloroprene
background information on **263**
Cholestrol
near-maximal ECG stress testing and coronary artery risk factor analysis in fire fighters **693**
Chronic Beryllium Disease
compensation experience of patients **167**
Chronic Pain Syndrome
experience in the Oakdale comprehensive disability evaluation unit **663**
introductory case presentation **664**
psychiatric evaluation and feasibility of psychiatric therapy **656**
treatment strategies of operant conditioning in rehabilitation **658**

Coronary Artery Disease
near-maximal ECG stress testing and coronary artery risk factor analysis in fire fighters **693**
Coronary Bypass Surgery
return to work after (letter) **147**
Criteria Documents
recommendations for a cotton dust standard **457**
recommendations for a crystalline silica standard **775**
sulfuric acid **725**
Criteria Documents (Commentary)
on cotton dust (criteria document) **467**
the walrus and the carpenter or the silica criteria standard (criteria document) **782**

D

Decompression Sickness
a clinical series **324**
Dermatology
patch testing of coolant fractions **565**
Diazo Developer Chemicals
study of abnormal laboratory findings in workers exposed to **502**
Dichlorobenzidene
experience of tumors in a British plant handling DCB **23**
Dimethyl Phosphorochloridothionate
keratitis on exposure to DMPCT **335**
Disability
aseptic bone necrosis survey in compressed air workers **666**
household surveys and causes and consequences **173**
occupational illnesses and injuries of California agriculture workers **177**
return to work list **749**
Drug Abuse
a rehabilitation program **351**

E

ECG Stress Testing
near-maximal and coronary artery disease risk factor analysis in fire fighters **693**
Editorials
cadmium ... more epidemiologic work needed **196**
imagination **469**
NCRP standing order system **132**
the "compleat" physician **269**
the interindustry noise study signs of the medical times **756**
what constitutes proof? (DCB) **51**
Electrical Current Exposure
a preventible death from an electrical hand tool malfunction **589**
Emergency Medicine
in industry (letter) **492**
Epidemiology
company (?) epidemiologists (letter) **71**
retrospective study of alleged diseases associated with vinyl-chloride in West Germany **430**
solvent exposure and leukemia among rubber works: an epidemiologic study **234**
Employee Counseling
professional counseling in a company with a broad dispersion of work locations **702**
Employee Health
an atherosclerosis prevention program **295**
a drug abuse rehabilitation program **351**
the employee with alcohol, drug and emotional problems **329**
multiphaisic health testing **495**
services: one hospital's experience **230**
sickness absence and smoking behavior and its consequences **441**
vascular disease in employed males **425**

F

Film Review
Institute for Dermatologic Communication and Education: Review of occupational dermatoses (reviewed by Gerald A Gellin) **222**

G

graphic symbols in an occupational health service **756**

H

Health Care Management
an atherosclererosis prevention program **295**
the Bronx study — a trial **648**
the company doctor **652**
Health Education Newsline
how to make cervical cancer control in industry more effective **52**
short takes **491**
Health Maintenance Organizations
the HMO concept and its current status **628**
HMO organizations and occupational medicine **635**
HMO's and occupational medicine — discussion **643**
HMO's and the employer **632**
a medical director's experience with **640**
a medical director's experience with two types **637**
Hodgkin's Disease
solvent exposure and leukemia among rubber workers: an epidemiologic study **234**
Hydrocarbons
toxicology of PPOM **786**
Hypertension
in Oregon pesticide-formulating workers **182**
vascular diseases in employed males **425**

I

Immunogiobulins
in workers **706**
Industrial Hygiene
department of labor recommendations **91**
development of physical profiles for specific jobs **27**
Dow's approach to toxicity and exposure guideline development in industrial hygiene **251**
early detection of lung cancer in high risk populations **19**
experience of tumors in a British plant handling DCB **23**
how to make cervical cancer control in industry more effective **52**
justification for NIOSH recommended air standards **93**
lead industries association position **84**
mortality of lead workers **100**
NIOSH criteria document development **77**
NIOSH recommended biological limits **97**
occupational skin cancer **44**
organized labor recommendations **80**
retrospective survey of alleged diseases associated with vinyl-chloride in West Germany **430**
standards for lead exposure **75**
study of abnormal laboratory findings in workers exposed to Diazo developer chemicals **502**
urinary excretion of metabolite following experimental human exposure to DMF or to DMAC **506**
usefulness of biologic and air standards for lead **108**
what do we expect from an occupational cohort? **126**
Industrial Medicine
see occupational medicine, occupational health, industrial hygiene
Insulin
mortality factors in diabetes **716**
Internal Medicine
antibodies to Epstein-Barr-virus antigens before and after development of Burkitt's lymphoma in patient treated for Hodgkin's disease **608**
early ambulations after acute myocardial infarction **546**
failure of high dose 5-Iodo — 2' deoxyuridine — for herpes simplex encephalitis **546**
gasoline immersion burn **204**
hepatitis A: report of a common-source outbreak with recovery of a possible etiologic agent. 2 laboratory studies **546**
interstitial nephritis with anti-tubular basement membrane antibody **608**
valve replacement — a perspective **607**
Ischemic Response
heart rate and ECG responses of fire fighters **247**

K

Karatitis
on exposure to DMPCT **335**

L

Lead Poisoning
blood lead — an inadequate measure of occupational exposure **155**
blood lead analysis — precision and stability **153**
blood lead (lead) **348**
blood lead (letter) **413**
blood lead — measurement of occupational exposure (letter) **413**
blood measurements alone can provide a false sense of security (letter) **621**
erythrocytic aminolevulinic acid dehydratase (ALAD) activity as a biologic parameter for determining exposures **157**
more about blood lead (letter) **561**
Leukemia
and potential benzene exposure (letter) **5**
solvent exposure and leukemia among rubber workers: an epidemiologic study **234**
Liver
angiosarcoma of liver in vinyl chloride/polyvinyl chloride workers **333**
IBM employee mortality **708**
vinyl chloride and haemangiosarcoma of (letter) **285**
Low Back
experience of the Oakdale comprehensive disability evaluation unit **663**
introductory case presentation **664**
the preplacement examination **254**
profile of a low back derelict **258**
psychiatric evaluation and feasibility of psychiatric therapy **656**
treatment strategies of operant conditioning in rehabilitation **658**
Lung
byssinosis: airway responses in textile dust exposure **357**
early detection of cancer in high risk populations **19**
ozone hazard in UV isolation units **186**
pulmonary evaluation of sandblasters **523**

relationship of several ventilatory capacities and lung volumes to age, height, weight **355,** correction **568**
some biochemical aspects of cadmium toxicology **189**
Lymphosarcoma and Reticulum Cell Sarcoma
solvent exposure and leukemia among rubber workers: an epidemiologic study **234**

M

Mental Health
"troubled" employees in a mental hospital **34**
Miscellaneous
medical topics in nursery rhymes **198**
Multiphasic Health Testing
benefit cost analysis **495**
Multiple Myloma
solvent exposure and leukemia among rubber workers: an epidemiologic study **234**
Musculo-Skeletal Capabilities
a practical approach **266**

N

National Institute for Occupational Safety and Health
occupational health's future **171**
views of the new director **596**
Neoplasms
IBM employee mortality **708**
Neurology
company(?) epidemiologists (letter) **71**
Noise and Hearing
occupational hearing loss between 85 and 90 dba **13**
protective devices in a hearing conservation program **731**
protocol of interindustry noise study **760**

O

Occupational Hazards
biological effects of segmental vibration **37**
comparison of methods for assessing **313**
Occupational Health
consultation and reference sources **446**
department of labor recommendations **91**
do we have a national health policy? **625**
the expanding scope **623**
experience of tumors in a British plant handling 3 3' DCB **23**
graphic symbols in an occupational health service **756**
HMO and occupational medicine **635**
the HMO concept and its current status **628**
HMO's and the employer **632**
how to make cervical cancer control in industry more effective (Hlth. Ed. Newsline) **52**
justification for NIOSH recommended air standard **93**
lead industries association position **84**
long-term mortality experience of steelworkers **40**
long-term mortality study of steelworkers **751**
a medical director's experience with an HMO **640**
a medical director's experience with two types of HMO's **637**
mortality of lead workers **100**
NIOSH criteria document development **77**
NIOSH recommended biological limits **97**
occupational health's future **171**
occupational skin cancer **44**
organized labor recommendations **80**
professional counseling in a company with a broad dispersion of work locations **702**
see also occupational medicine, multiphasic health screening, multiphasic health testing, mental health, health maintenance organization, health care management
standards for lead exposure **75**
transatlantic occupational health **225**
update on organization and operation of (letter) **561**
usefulness of biologic and air standards for lead **108**
what do we expect from an occupational cohort? **126**
Occupational Medicine
background information on chloroprene **263**
background information on trichoroethylene **603**
biological effects of segmental vibration **37**
comparison of methods for assessing occupational hazards **313**
department of labor recommendations **91**
do we have a national health policy? **621**
employee health services **230**
the employee with alcohol, drug and emotional problems **329**
the expanding scope of **621**
experience of tumors in a British plant handling DCB **23**
from Ramazzini to occupational health today from an international health perspective **289**
HMO and **635**
the HMO concept and its current status **628**
HMO's and occupational medicine — discussion: **643**
HMO's and the employer **632**
how to make cervical cancer control in industry more effective (Hlth. Ed. Newsline) **52**
an imaginary letter from a busy, small town physician **267**
justification for NIOSH recommended air standard **93**
lead industries association position **84**
long-term mortality of steelworkers **40**
the medical community and the workmen's compensation insurance carrier **318**
methods in mortality studies **581**
mortality factors in diabetes **716**
mortality of lead workers **100**
multiphasic health testing **495**
NIOSH criteria document development **77**
NIOSH recommended biological limits **97**
occupational skin cancer **44**
organization and operation of an occupational health program, Pt. 1 **360,** Pt. 2 **433,** Pt. 3 **528**
organized labor recommendations **80**
the preplacement examination **254**
a preventible death from an electrical hand tool malfunction **589**
protective devices in a hearing conservation program **731**
a second look at eye care **260**
see also occupational health, health maintenance organizations, health care management
standards for lead exposure **75**
transatlantic occupational health **225**
usefulness of biologic and air standards for lead **108**
what do we expect from an occupational cohort? **126**
women in the work environment **308**
Occupational Mortality
long-term experience of steelworkers **40**
long-term study of steelworkers **751**
methods for studies **581**
Ophthalmology
chemical contact lens problem (letter) **348**
investigation of the chemical contact lens problem **166**
a second look at eye care **260**
Otolaryngology
occupational hearing loss between 85 and 90 dba **13**
Ozone Hazards
in UV isolation units **186**

P

Perlite
radiographic survey of workers **304**
Physical Examinations
development of physical profiles for specific jobs **27**
evaluating musculo-skeletal capabilities — a practical approach **266**
outplacement exams (letter) **6**
the preplacement examination **254**
validity of preemployment medical examinations **687**
Physical Fitness
development of physical profiles for specific jobs **27**
Preemployment Medical Evaluation
validity of **687**
President's Page
continuing education **470**
Psychiatry
"troubled" employees in a mental hospital **34**
Pulmonary Disease
pulmonary evaluation of sandblasters **523**

R

Radiation
occupational skin cancer **44**
Radiography
survey of perlite workers **304**
Raynaud's Phenomenon
biological effects of segmental vibration **37**
Relicensure and Recertification
the pros and cons of **771**
Respiratory Diseases
IBM employee mortality **708**
medical surveillance for occupational respiratory diseases **519**
sickness absence and smoking behavior and its consequences **441**

S

Sappington Memorial Lecture
pros and cons of relicensure and recertification **771**
transatlantic occupational health **225**
Sickness Absence Certification
the physician's role in **722**
Smoking
near-maximal ECG stress testing and coronary artery disease risk factor analysis in fire fighters **693**
sickness absence and smoking behavior and its consequences **441**
Spirometry
relationship of several ventilatory capacities and lung volumes to age, height, weight **355,** correction **568**
Stress
stressor effects of static work **515**
Sulfuric Acid
criteria document **725**

T

Textile Dust
byssinosis: airway responses **357**
Tolyene Diisocyanate
TDI vapor concentrations (letter) **413**
Toxicity
background information on chloroprene **263**
Dows's approach to toxicity and exposure guideline development in industrial hygiene **251**
some biochemical aspects of cadmium toxicology **189**
toxicology of PPOM **786**
Trauma
immunoglobulins in workers with traumatic disease **706**
Trichloroethylene
methods in occupational mortality studies **581**

V

Vascular Disease
in employed males **425**
Vinyl Chloride
angiosarcoma of liver in vinyl chloride/polyvinyl chloride workers **333**
and haemangiosarcoma of the liver (letter) **285**
retrospective survey of alleged diseases associated with vinyl chloride in West Germany **430**

W

Work Behavior
principles of behavior modification with individuals and small groups **512**
women in the work environment **308**
Workmen's Compensation
compensation experience of patients with chronic beryllium disease **167**
the medical community and the workmen's compensation insurance carrier **318**
occupational health's future **171**
occupational illnesses and injuries of California agriculture workers **177**
pelletol poisoning **541**

Selected Reviews from the Literature

Clinical Toxicology
anesthesiologists point out hazards in operating room atmosphere **271**
angiosarcoma of liver following vinyl chloride exposure **58**
epidemic hepatitis in a clinical laboratory: possible association with computer card handling **271**
asbestosis and carcinoma of larynx **57**
asbestos-like fibers in Duluth water supply — relation to cancer mortality **58**
band keratopathy in mercury exposure **668**
carboxyhemoglobin in volunteer blood donors **272**
cardiovascular effects of 1,1,1-trichloroethane **201**
"degreasers flush": dermal response to trichloroethylene and ethanol **199**
determination of drugs in biologic specimens **272**
drinking water as a source of lead pollution **201**
environmental impact of cadmium: review by panel on hazardous trace substances **200**
hair of the dog **57**
hypersensitivity pneumonitis due to organic dusts **201**
influence of cutaneous hypersensitivity to beryllium on development of experimental pulmonary berylliosis **199**
ingested dyed cellulose in the blood and urine **58**
inhalation of aerosolized ethylene glycol by man **272**
laboratory diagnosis of increased lead absorption **201**
liver function in workers having high tissue stores of chlorinated hydrocarbon pesticides **200**
mercury burden of human autopsy organs and tissues **58**
mercury in man **58**
n-hexane neuropathy: a syndrome occurring as a result of industrial exposure **475**
toxic polyneuropathy due to methyl n-butyl ketone **606**
use of breath analysis to monitor trichloroethylene exposures **200**
when friends and patients ask about DDT **202**
Dermatology
allergic contact dermatitis in hand eczema **476**
cashew nut dermatitis **734**
chloracne — a continuing problem **58**
contact dermatitis from typewriter correction paper **735**
cutaneous manifestations of trichloroethylene toxicity **735**
diphenhydramine photoallergy **476**
ethylene oxide burns **734**
formaldehyde allergy — the quantitative analysis of American clothing for free formaldehyde and its relevance in clinical practice **476**
fumigant-induced toxic epidermal necrolysis **337**
hypersensitivity to tartrazene and other dyes present in pharmaceutical products **735**
perleche (angular cheilitis) due to contactants **476**
prevention of occupational skin diseases from exposure to chromic acid and chromates: use of ascorbic acid **58**
propylgallate — contact sensitization and orally induced tolerance **475**
Experimental Toxicology
cadmium inability to induce hypertension in the rat **58**
carcinogenicity of different polycyclichydrocarbons in the respiratory tract of hamsters **792**
cardiovascular effects of 1,1,1-trichloroethane **545**
chronic animal inhalation toxicity to cobalt **59**
dietary enhancement of nitrosamine carcinogenesis **607**
effects of inhalation of asbestos in rats **59**
embryonic-fetal toxicity and teratogenic effects of adipic acid esters in rats **607**
experimental infection by respiratory route of non-immunized mice exposed to atmosphere contaminated by auto exhaust **607**
influence of dietary factors on the gastrointestinal absorption of lead **202**
inhalation carcinogenesis from various forms of asbestos **792**
inhalation carcinogenicity of alpha halo ethers, II, chronic inhalation studies with chloromethyl methyl ether **607**
inhalation carcinogenicity of alpha halo ethers. III lifetime and limited period inhalation studies with bis (chloromethyl) ether at 0.1 ppm **607**
investigations on the carcinogenic burden by air pollution in man. VII. studies on the oncogenic interaction of polycyclic aromatic hydrocarbons **202**
long-term exposure to sulfur dioxide, sulfuric acid mist, fly ash, and their mixtures **792**
long-term toxicity study of methylmercuric chloride in monkeys **59**
monosodium glutamate studies in four species of neonatal and infant animals **793**
nervous system degeneration produced by methyl n-butyl ketone **792**
nitrite intoxication: protection with methylene blue and oxygen **607**
parathyroid gland changes following ozone inhalation **202**
percutaneous absorption of hexachlorophene **544**
pulmonary lesions induced by chronic exposure to ozone. 1. biochemical alterations **544**
pyrazole as an antidote for ethylene glycol poisoning **545**
range-finding toxicity data: list VIII **203**
relative distribution of manganese in organs of rat **202**
role of relative humidity in the synergistic effect of a sulfur dioxide-aerosol mixture on the lung **202**
teratogenic effect of benzene in pregnant mice **793**
toxic polyneuropathy produced by methyl n-butyl ketone **606**
toxicity of dimethyl sulfoxide (DMSO) for the dog, pig and rabbit **545**
Industrial Hygiene
arsenic poisoning **273**
calibration standards for counting asbestos **477**
chronic respiratory disease in four occupational groups **203**
a cohort study of bronchial carcinomas in workers producing chromate pigments **477**
development of occupational standards **545**
dust control techniques in asbestos industry **273**
effects of heat stress on manual handling tasks **203**
effects of wind on the dust and benzene soluble matter captured by a sampler **546**
the effciency of protective hoods used by sand blasters to reduce silica dust exposure **476**
evaluation and control of chemicals in polystyrene manufacturing **273**
factors contributing to development of low back pain **477**
health surveillance of personnel occupationally exposed to microwaves **203**
mercury and the hazards of vacuum cleaning **477**
micro analysis for lead in blood with built-in contamination control **337**
palpitation rates associated with fluorocarbon exposure in a hospital setting **545**
the relation of noise exposure to noise induced hearing damage **476**
respiratory cancer and occupational exposure to arsenicals **273**

solvent evaporation rates **203**
standards for protection of personnel against nonionizing radiation **477**

Mental Health
the crisis of work for older people **205**
decline of industrial psychiatry **680**
followup study of clinical course of schizophrenics — with special reference to their occupational adjustment **608**
human aspects of managing transition **609**
investigation of socio-psychological determinants of subordinate satisfaction/dissatisfaction from perspectives of organizational participation withdrawal and leadership **608**
is there a new work ethic? **609**
the labor market and schizophrenics post-hospital employment **205**
loneliness and dissatisfaction in a blue collar population **204**
mental health care in the world of work **609**
mental illness in industry **609**
mental stress at work **204**
methodology of mental health administration clinic in industry **204**
mystery gas: an analysis of mass hysteria **668**
occupational level and mental health **608**
occupational maladjustments: depression **205**
occupational maladjustment: schizophrenia **204**
occupational stress and coronary heart disease: a review and theoretical integration **668**
perceived similarity, personality and attraction to large organizations **609**
physicians who kill themselves **205**
psychiatry and society: occupational maladjustment **205**
psychiatric illness in doctors **609**
the psychiatrist in an employee-counseling program **205**
research on effect of noise on workers **204**
the VIP with psychiatric impairment **205**
work **608**

Noise and Hearing
acoustic trauma after double exposure in mammals **478**
beurteilung vonArbeitslärm am Arbeitsplatz hinsichtlich Gehörschäden. Beitrag zu den überwachungsuntersuchungen nach VDI 2058, Blatt 2. **402**
cardiovascular risk factors and hearing loss **735**
certain non-audiotory physiological responses to noise **735**
changes in loudness after stapedectomy **206**
effect of noise exposure during primary flight training on the conventional and high frequency hearing of naval aviation officer candidates **206**
effect of noise on intellectual performance **206**
effects of noise stress on blood glucose level and skilled performance **793**
effectiveness of hearing protective devices **569**
effects of intermittant, moderate intensity noise stress on human performance **206**
hearing loss in adults: relation to age, sex, exposure to loud noise and cigarette smoking **59**
hearing threshold sensitivity in airline pilots **206**
intermittant noise exposure and associated damage **735**
temporary threshold shifts produced by exposure to vibration, noise, and vibration plus noise **794**

Radiation
accidental inhalation of mercury 203 **609**
assessment of management of a plutonium contaminated wound case **207**
autopsy study of blast crisis in patients with chronic granulocytic leukemia, Hiroshima and Nagasaki, 1949-1969 **207**
biological effects of noble gases **547**
biological effects of plutonium **479**
chromosome aberrations in the leukocytes of partial-body and whole-body-irradiated swine **610**
clinical course and dosimetry of acute hand injuries to industrial radiographers from multicurie sealed gamma sources **546**
comparative distribution and excretion of ^{237}Pu and ^{239}Pu nitraces in beagle dogs **478**
comparative effects of acetazolamide and prussion blue on ^{127}cs retention in the rat **610**
concentrations of the medically useful radionuclides, technetium-99m and iodine-131 at a large metropolitan waste water treatment plant **610**
correlation of leukemia mortality rates with attitude in the U.S. **338**
dependence of DPTA toxicity on the treatment schedule **736**
directed chromosome loss by laser microirradiation **478**
disposal of radioactive wastes in salt domes **736**
the dispute over safe uses of x-rays in medical practice **736**
dose distribution and neoplasia in the lung following intratracheal installation of ^{239}Pu O_2 and asbestos **670**
dynamic myocardial imaging **403**
early excretion retention and distribution of injected curium citrate in beagles **274**
effect of ^{239}Pu O_2 particle number and size on the frequency and distribution of chromosome aberrations in the liver of the Chinese hamster **735**
effect of strong catron exchangers on the enhancement of elimination of ^{137}Cs from rat **670**
effects of low-dose prenatal irradiation in humans: analysis of Chicago Lying-in data and comparison with other studies **275**
excretion of ^{241}Am and ^{244}Cm following two cases of accidental inhalation **338**
experimental background for prompt treatment with DTPA of ^{239}Pu-contaminated wounds **275**
the human lymphacyte as a radiobiological dosimeter after total body irradiation **669**
industrial radiation incidents in the United Kingdom **479**
jejuno bypass as treatment of intractable obesity **669**
late effects of spinal cord irradiation with 300 kv x-rays and 15 mev neutrons **478**
late radiation effects: status and needs of epidemiologic research **338**
late radiation effects: status and needs of epidemiologic research **403**
longevity in radiated human populations with particular reference to atomic bomb survivors **274**
lung cancer at autopsy in a-bomb survivors and controls, Hiroshima and Nagasaki, 1961-1970 **338**
marrow transplantation **275**
measurement of ionizing radiation from color tv receivers by thermoluminescent dosimeters **478**
mortality in children of atomic bomb survivors and controls **207**
the new health and safety act as it relates to occupational radiation exposure **737**
origin and findings of atomic bomb casualty commission **207**
population exposure to x-rays — U.S. 1970 **547**
probabilistic assessment of aircraft risk for nuclear power plants **274**
radiation-induced head and neck tumors **402**
radioactivity of tobacco trichomes and insoluble cigarette smoke particles **274**
radiobiological assessment of spacial distribution of radiation dose from inhaled plutonium **479**
the radiological hazard from tritium sorbed on metal surfaces **736**
radium in man **479**
rapid measurement of radon, decay products, unattached fractions and working level values of mine atmospheres **610**
removal of ^{114}Ce in fused clay particles from the beagle dog lung by bronchopulmonary lavage **275**
routine screening and lateral chest radiographs in a hospital-based operation **547**
spermatogenesis alteration during protracted irradiation in man **669**
summary of low-level radioactive wastes buried at commercial sites between 1962-1973, with projections to year 2000 **479**
toxicity of ^{144}Ce inhaled as ^{144}Ce Cl_3 by the beagle: metabolism and dosimetry **669**
translocation kinetics of plutonium oxide from the popliteal lymph nodes of beagles **794**
U.S. transuranium registry study of 30 autopsies **736**

Surgery
accuracy of ultrasound in diagnosing abdominal masses **794**
arteriography **273**
axillary hidradenitis **480**
bleeding diverticulosis of the colon **547**
choice of abdominal operative incision in the obese patient **794**
comparison of colonoscopy and the contrast enema in 500 patients with colorectal disease **670**
comparison of seven suture materials in infected wounds **737**
current views of hip fracture **480**
disk injections for "failed laminectomy" cases **737**
hereditary benign and malignant lesions of the large bowel **274**
intermittant claudication **208**
lateral subcutaneous internal sphincterotomy for anal fissure **480**
observation of "acupuncture anesthesia" in the People's Republic of China **208**
ruptured abdominal aortic aneurysm **479**
subcutaneous emphysema of lower extremity of gastrointestinal origin **274**
surgical sequelae of drug abuse **208**
therapeutic pulmonary resection of colonic carcinoma metastatic to the lung **207**
treating lumbar disc lesion by prolonged continuous reduction of intradiscal pressure **208**
urea production related to intraperitoneal inflammation **670**

Work Physiology
changes in the threshold of vibration sensibility depending on skin temperature **480**
effect of a high carbohydrate diet on human recovery following prolonged work to exhaustion **481**
effects of noise stress on blood glucose level and skilled performance **482**
ergonomic aspects of biomechanics **481**
fatigue effects of light repetitive work on sensory motor coordination **481**
forces of human motion **482**
pharmacokinesiological study of alcoholic hangover **482**
problems in determining rest allowances. part 1-modern methods to evaluate stress and strain in static muscular work **482**
research note: reduction of muscular fatigue associated with repetitive light assembly operations and arm counterbalancing **482**
tactile and kinaesthetic aspects of pushbuttons **482**
